## FUNCTION HERO

### episode2

Lately, many students have become obsessed with Function Field Battle.

The teachers are saying they're falling behind in subjects other than math.

Okay...  
I'll be careful.

I just thought  
I should warn you.

Take care not to go  
down the same path.

I'll be on my way.

Rich girl thinks she's  
better than us, eh?

Don't worry  
about her.  
Have fun!

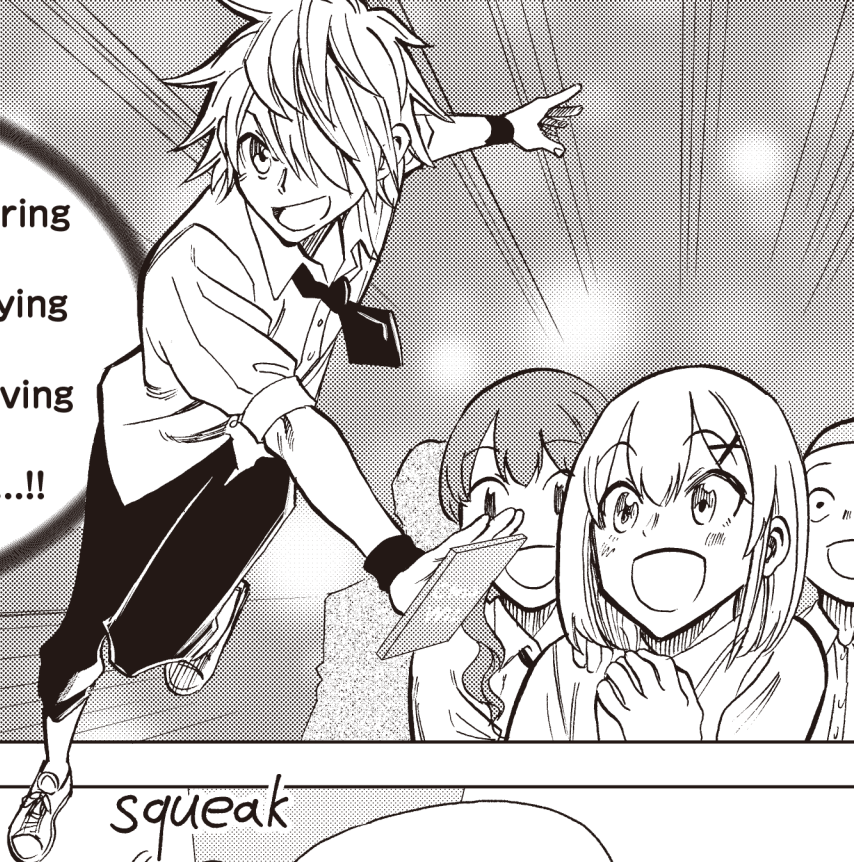

I'm not great at school,  
and I'm not in any clubs or anything.  
There isn't anything I'm really passionate about...

But...

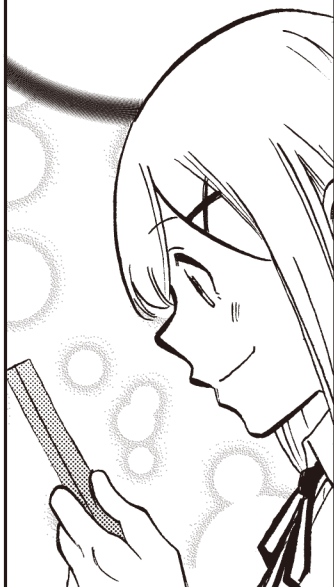

I was stressing over figuring out what I want to do, and then I saw Kaito playing Function Field Battle. He looked like he was having so much fun. My heart started racing...!!

Maybe if I try Function Field Battle,

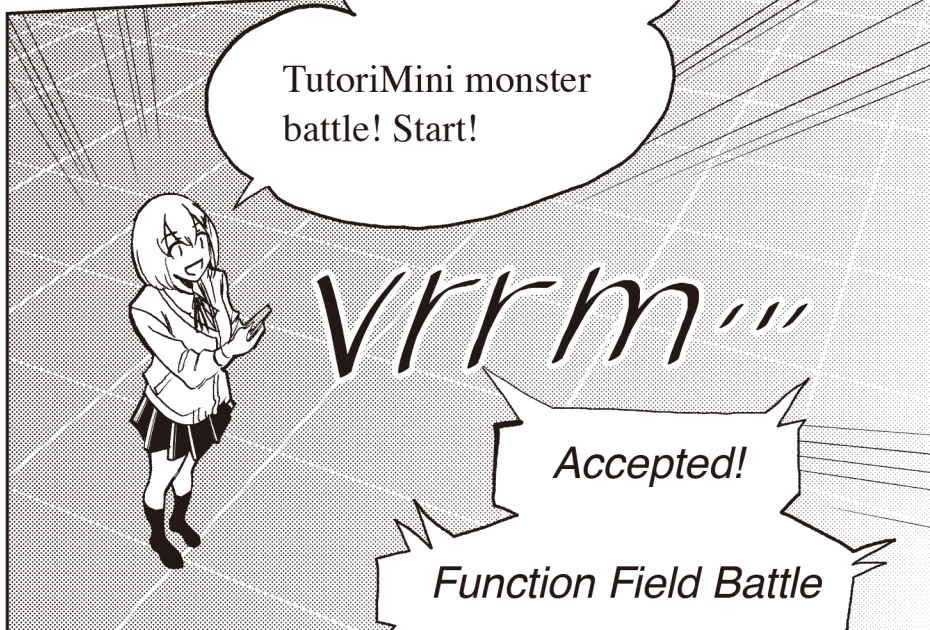

I'll start to like math, and I'll have something to work hard at...

Replay?

No!

I was so absorbed  
in typing that  
I missed my  
chance to dodge...

Who are you?

Hey, you!  
Beginner!

You don't have to use  
complicated functions!

I'm Mr. Master Rabbit!

I'm a rare character!

$$f(x) = |\cos x^2| + |\sin x|$$

Why did you choose  
such a complicated  
equation?

$f(x)$

$x$

I thought it  
would be hard  
to block...

And I thought it might  
be embarrassing to  
only use easy  
equations...

There's no such thing  
as an embarrassing  
equation!!

A place of dreams,  
where everyone  
can have fun  
with math...

That's what  
Function  
Field Battle is  
all about!

Thanks,  
Mr. Master Rabbit!  
I'll work hard!

Woah there!

Hold up!  
Stop!
